# The Country is Short 4 Million Housing Units

## Updated target housing stock

		2018			2020		
	HVS, Millions	Actual	Target	Gap	Actual	Target	Gap
(1)	Households	121.2	122.5	1.3	125.8	126.2	0.4
(2)	Vacant Units	17.0	18.3	1.3	15.4	18.9	3.5
=(1)+(2)	Housing Stock	138.3	140.8	2.5	141.2	145.0	3.8

Source: U.S. Census Bureau Housing Vacancy Survey (HVS).

Note: Totals may not add up due to rounding.

The [Freddie Mac analysis](#) estimates the housing shortage not only based on the actual number of households but also considers the latent demand and the number of vacant units. A well-functioning housing market requires some vacant properties for sale and for rent. Estimates are as of 5/7/2021.

## Income Needed to Afford Typical Home Hits New High in 2023

Share of earnings person on median income would need to spend on monthly housing costs to buy median priced home

# Changing Demographics

# The Changing Population of Homebuying

# Roughly 1 in 4 Adult Gen Zers Are Homeowners

U.S. homeownership rate by generation

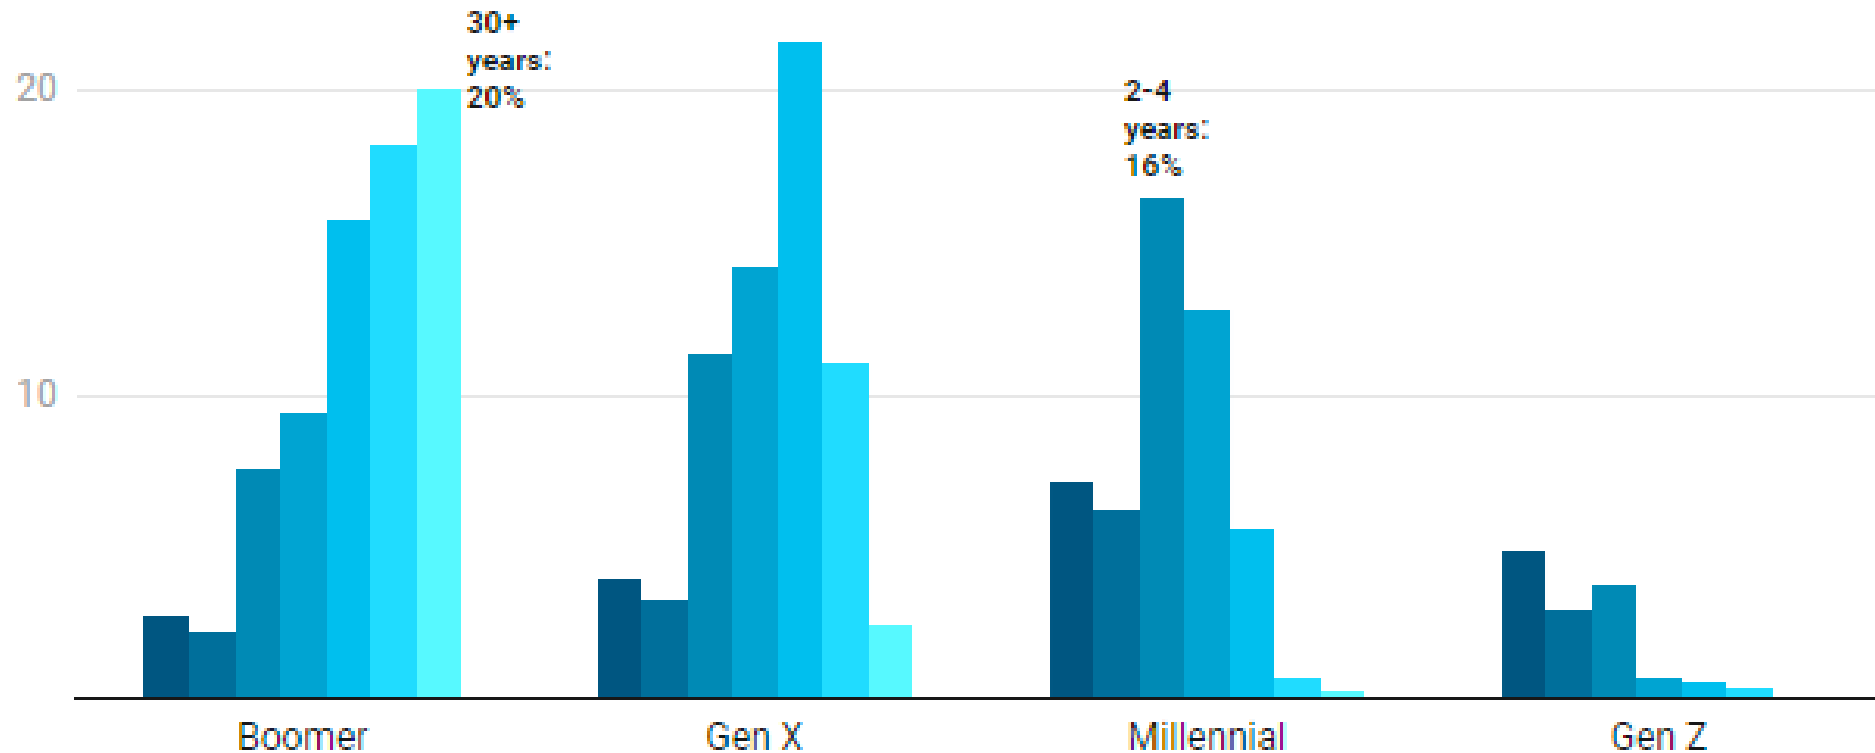

Source: Redfin analysis of Current Population Surveys (ASEC) 1976-2023; data retrieved through IPUMS-CPS

Note: Gen Z category only includes adult Gen Zers (19-26)

# 2 in 5 Baby Boomers Have Lived in Their Home 20+ Years

Share of homeowners who have lived in their home for the specified length of time, by generation

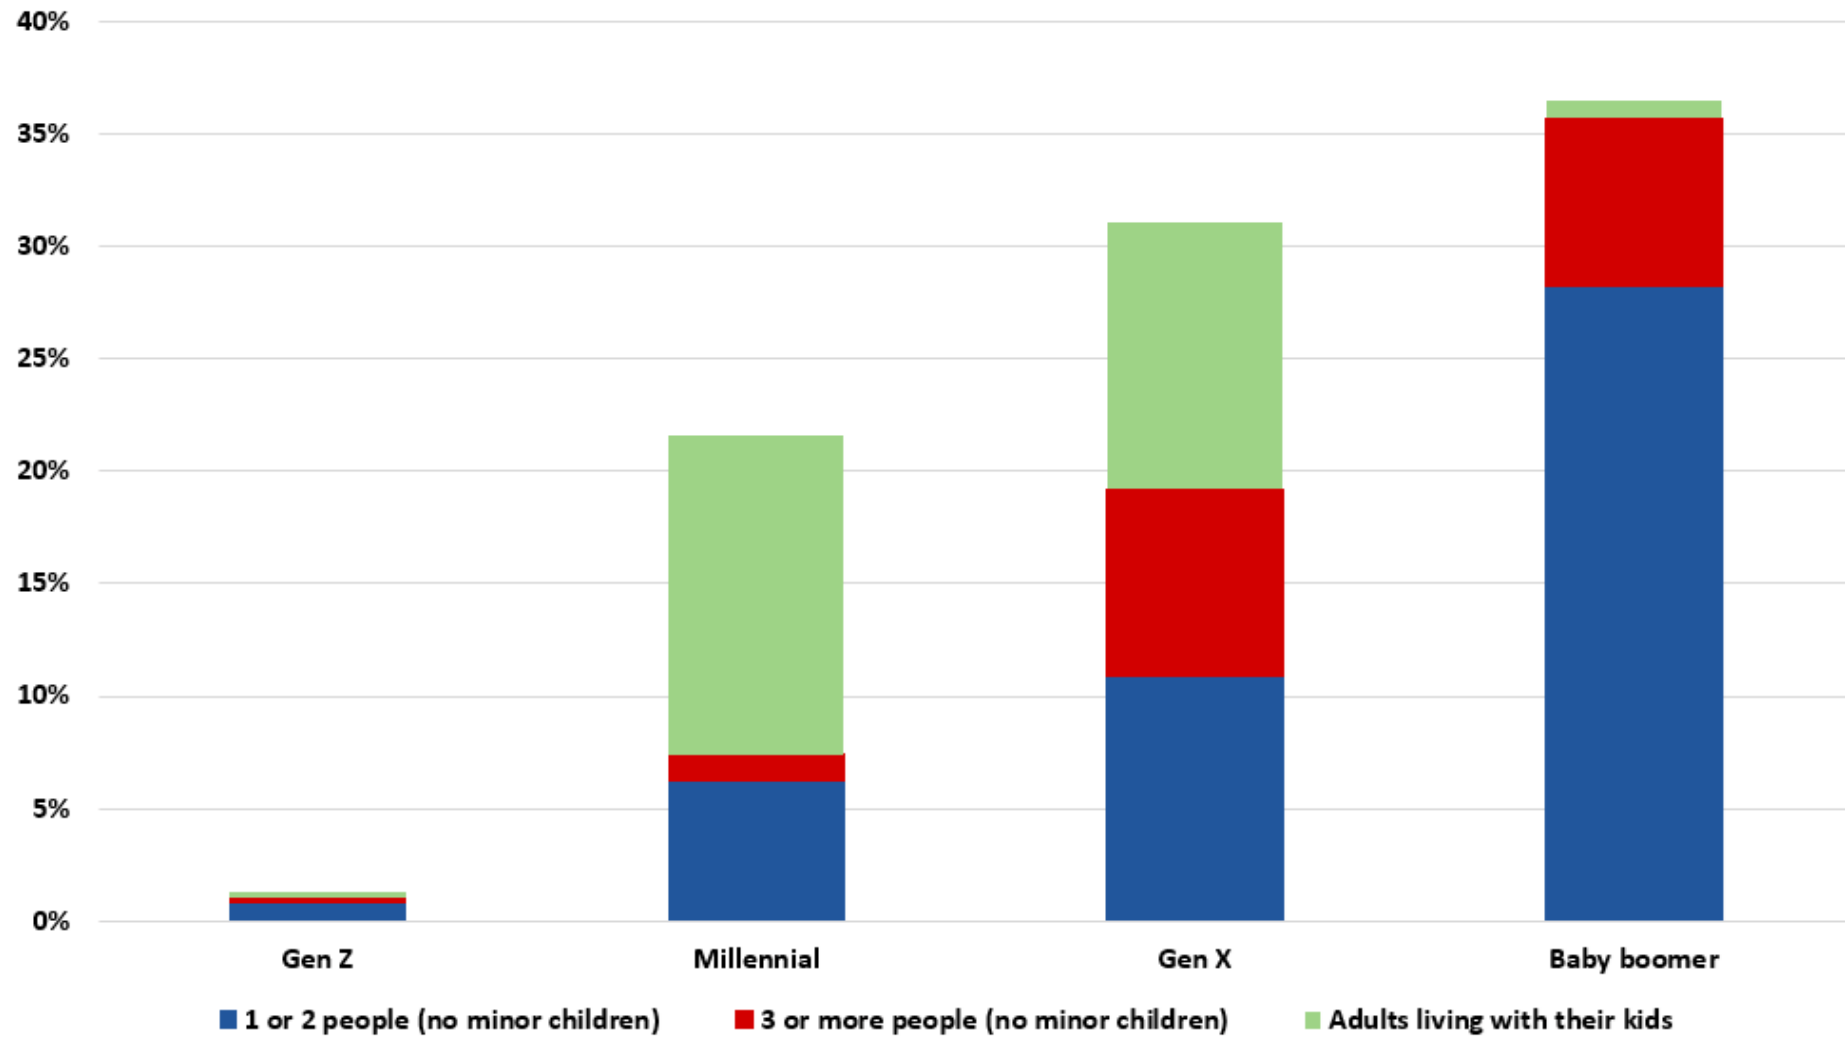

12 months or less 13 to 23 months 2 to 4 years 5 to 9 years 10 to 19 years 20 to 29 years 30+ years

Source: Redfin analysis of U.S. Census Bureau data • Created with Datawrapper

## Empty Nesters Own 28% of Large Homes; Millennials With Kids Own 14%

Share of 3-bedroom-plus U.S. owner-occupied homes owned by each generation, broken down by household type/size

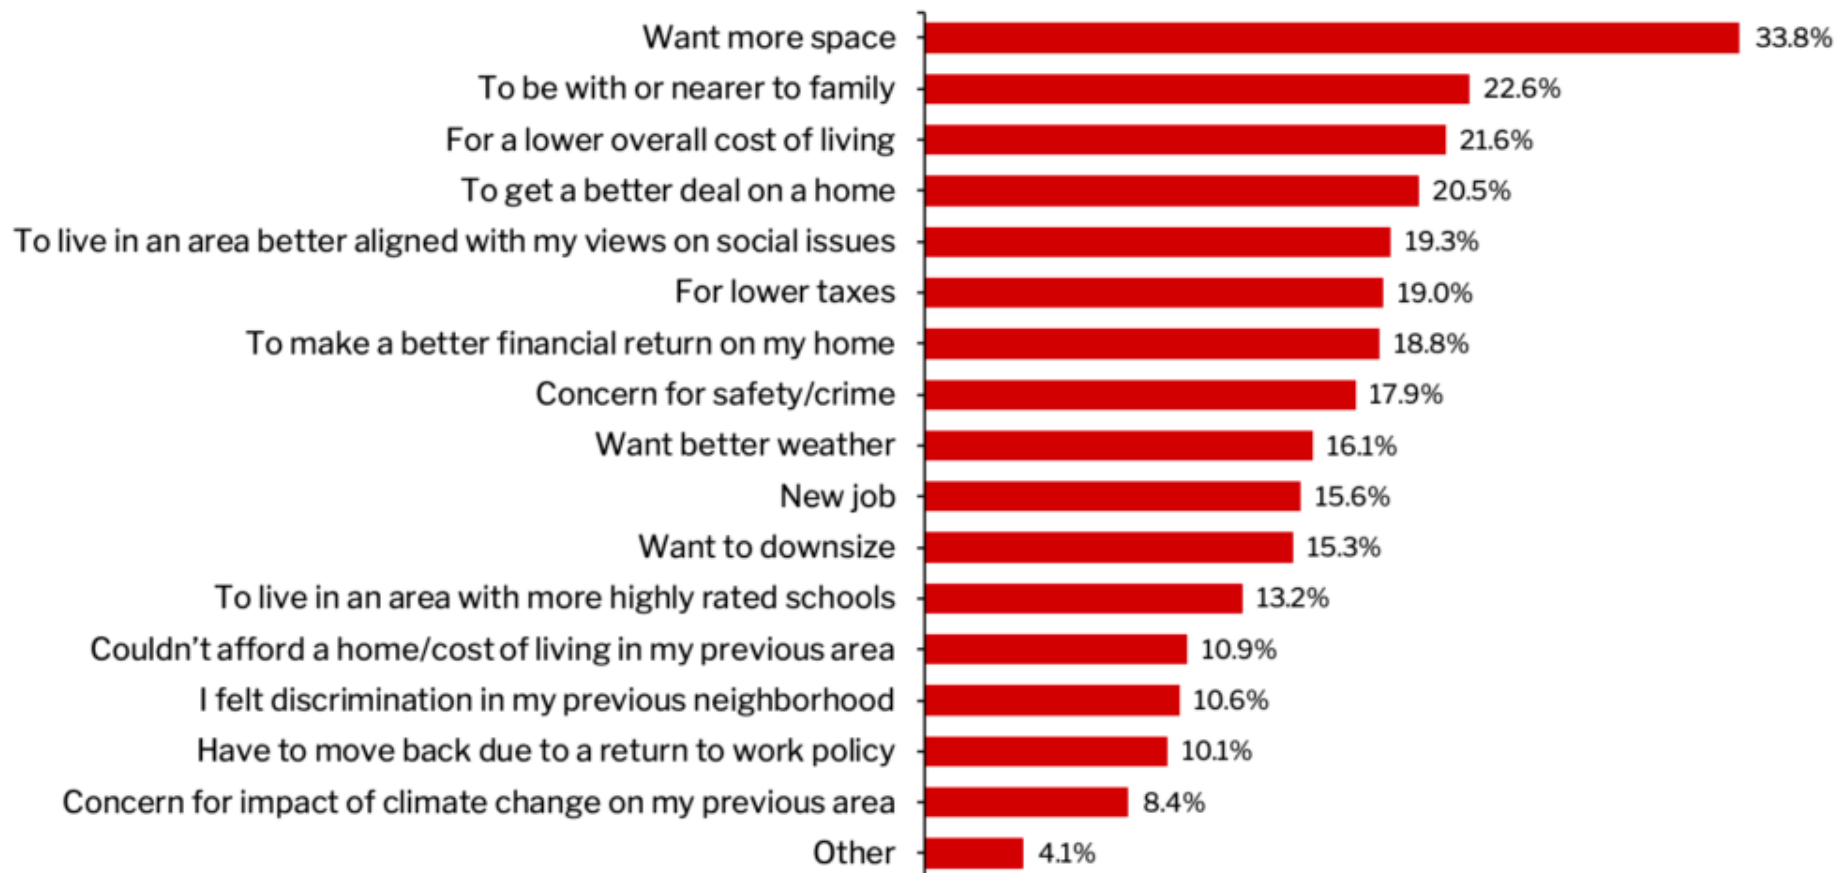

# Changing Preferences

## Desire for More Space Is Most Common Reason Respondents Cited for Moving

"Which of the following reasons reflect why you are likely to move in the next year? Select all the apply."

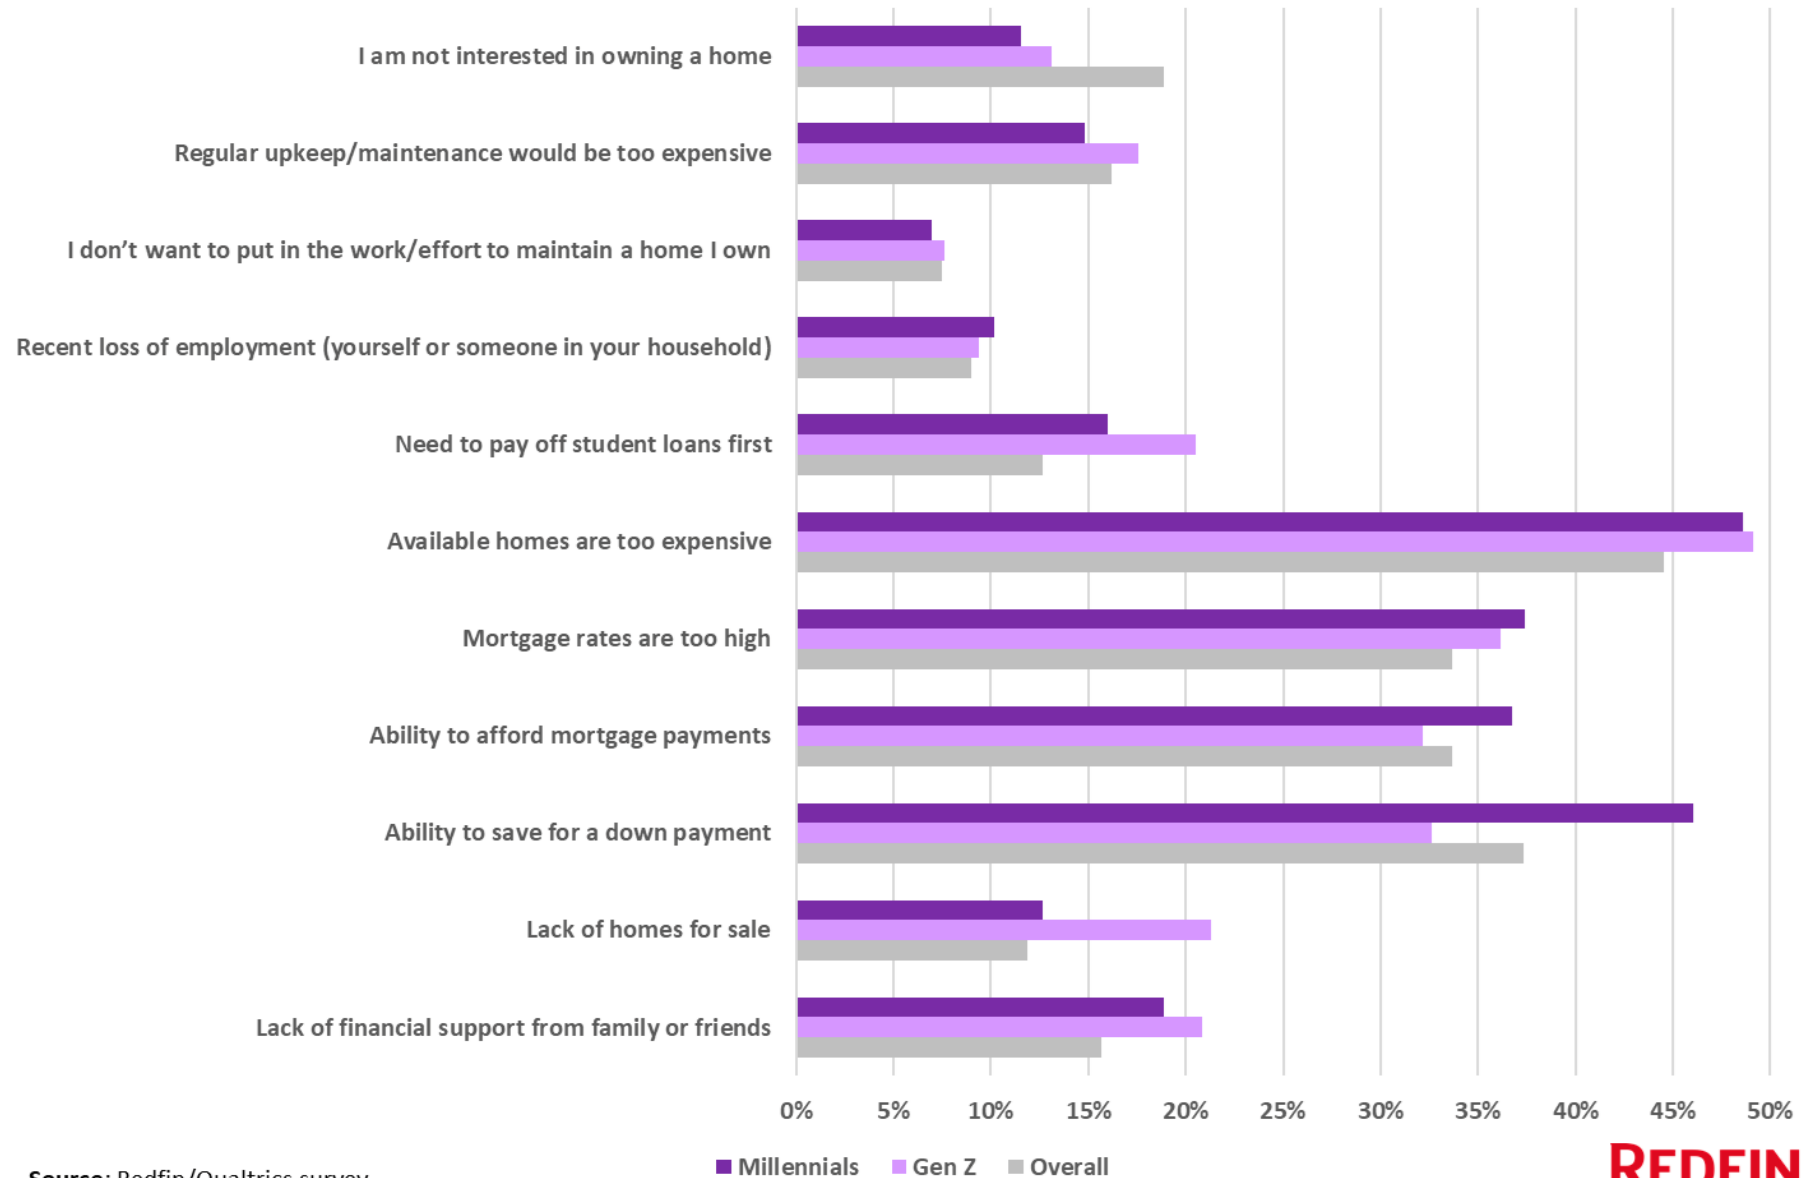

**Source:** Redfin-commissioned survey conducted by Qualtrics in May-June 2023; includes the 616 respondents who said they're likely to sell a home and move in next year

# "Homes Are Too Expensive": Affordability Is the #1 Barrier to Gen Z, Millennial Homeownership

Which of the following are reasons you are not likely to purchase a home in the near future? (Select all that apply)

Source: Redfin/Qualtrics survey

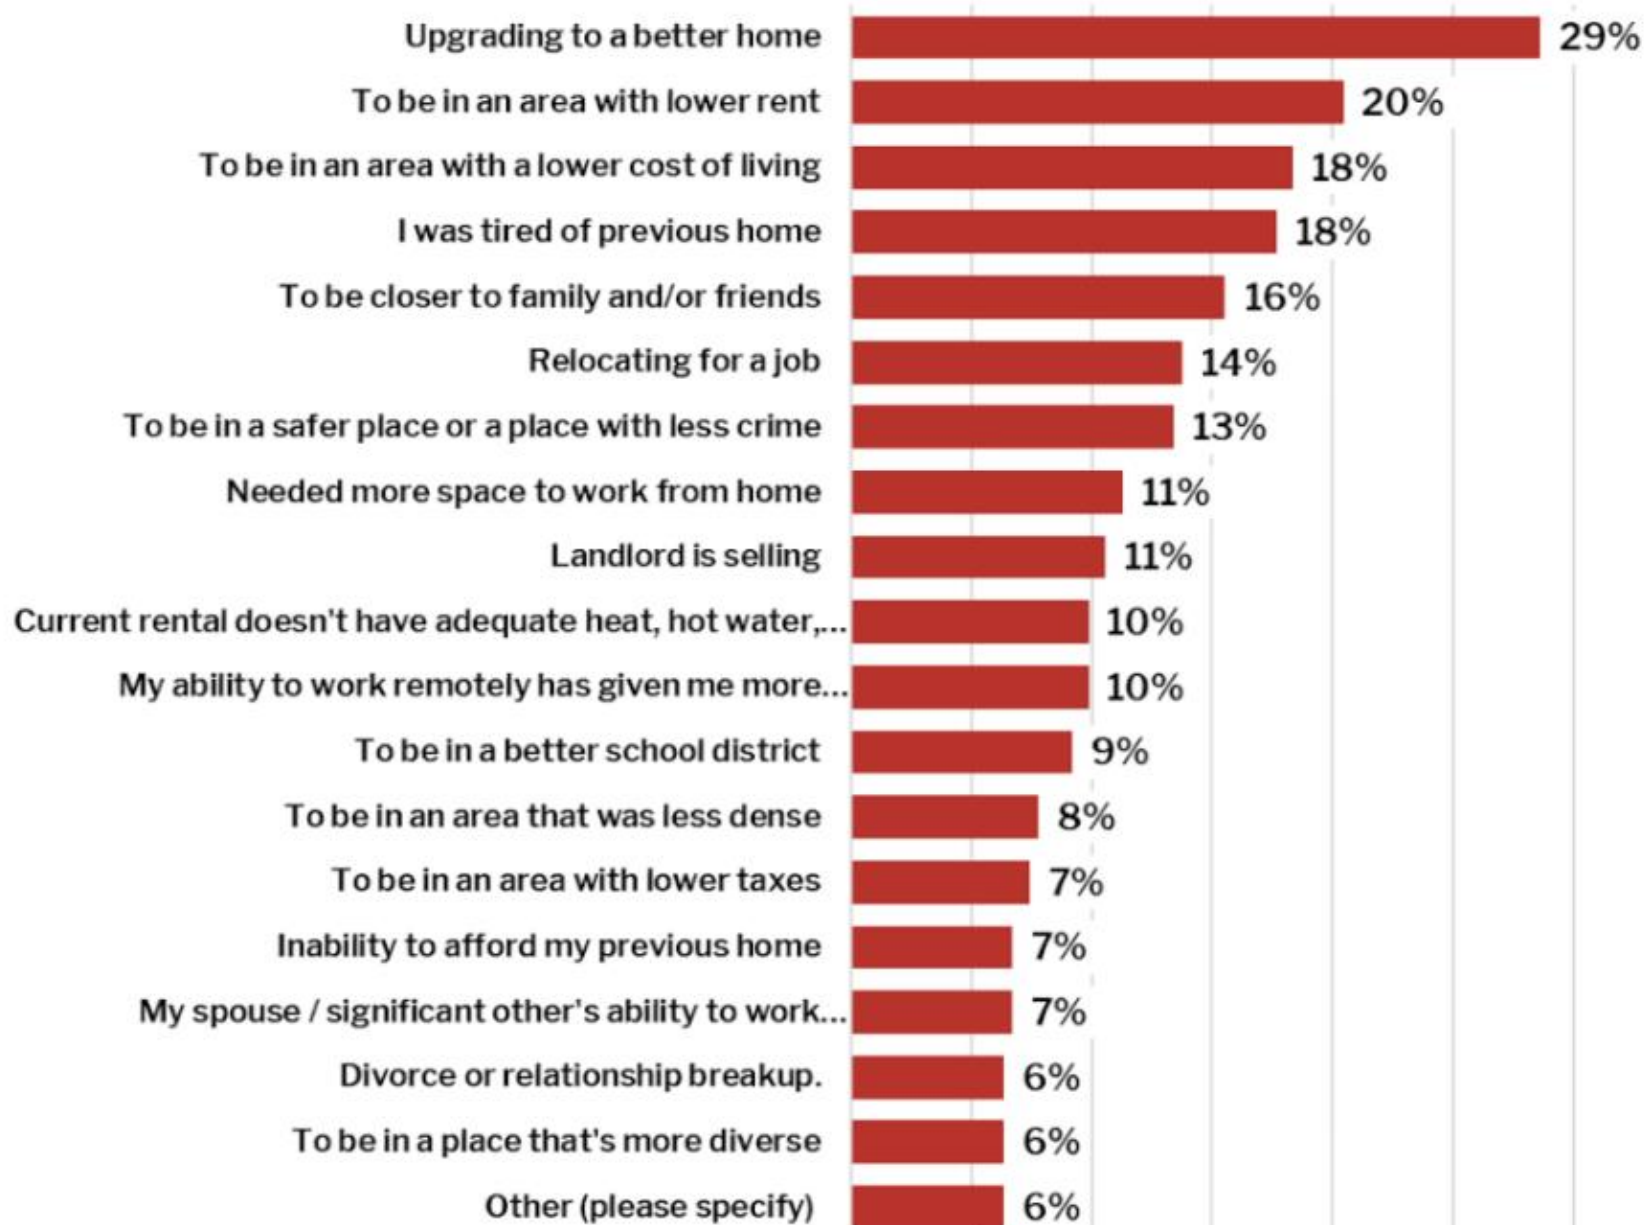

■ Millennials ■ Gen Z ■ Overall

**REDFIN**

**REDFIN**

# 1 in 5 Renters Who are Moving Seek Lower Rent

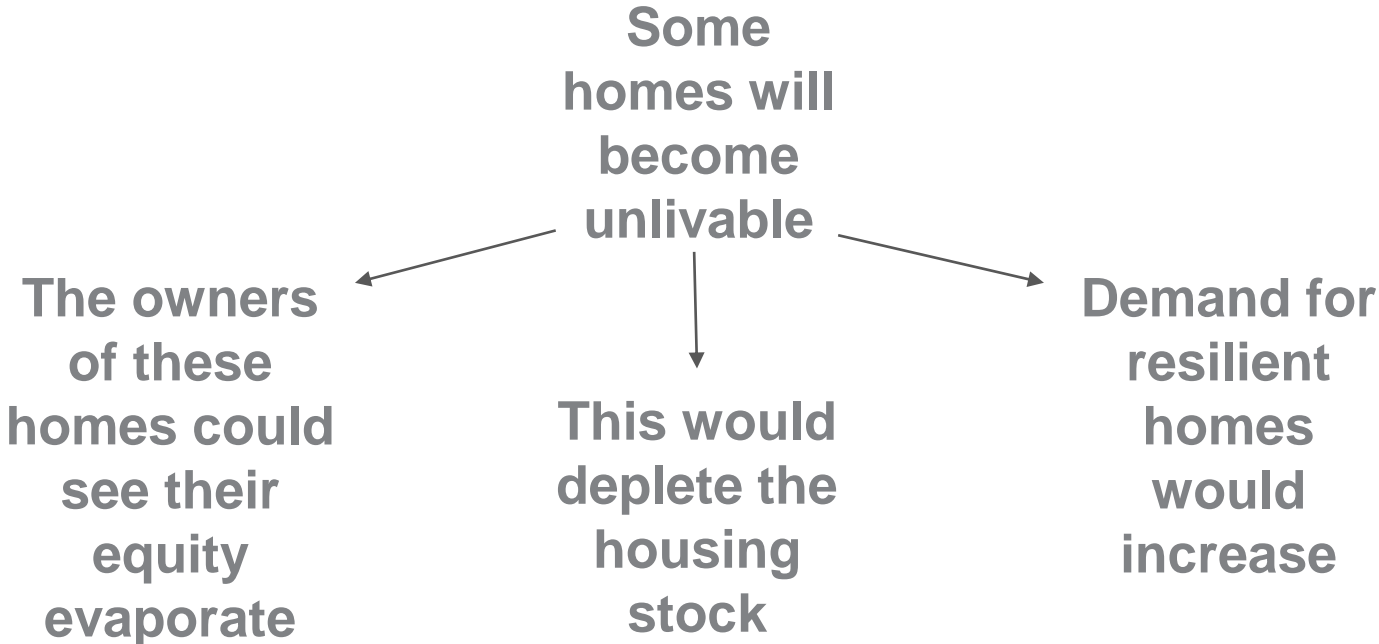

"What are your reasons for planning to move in the next 3 months?  
Select any that apply."

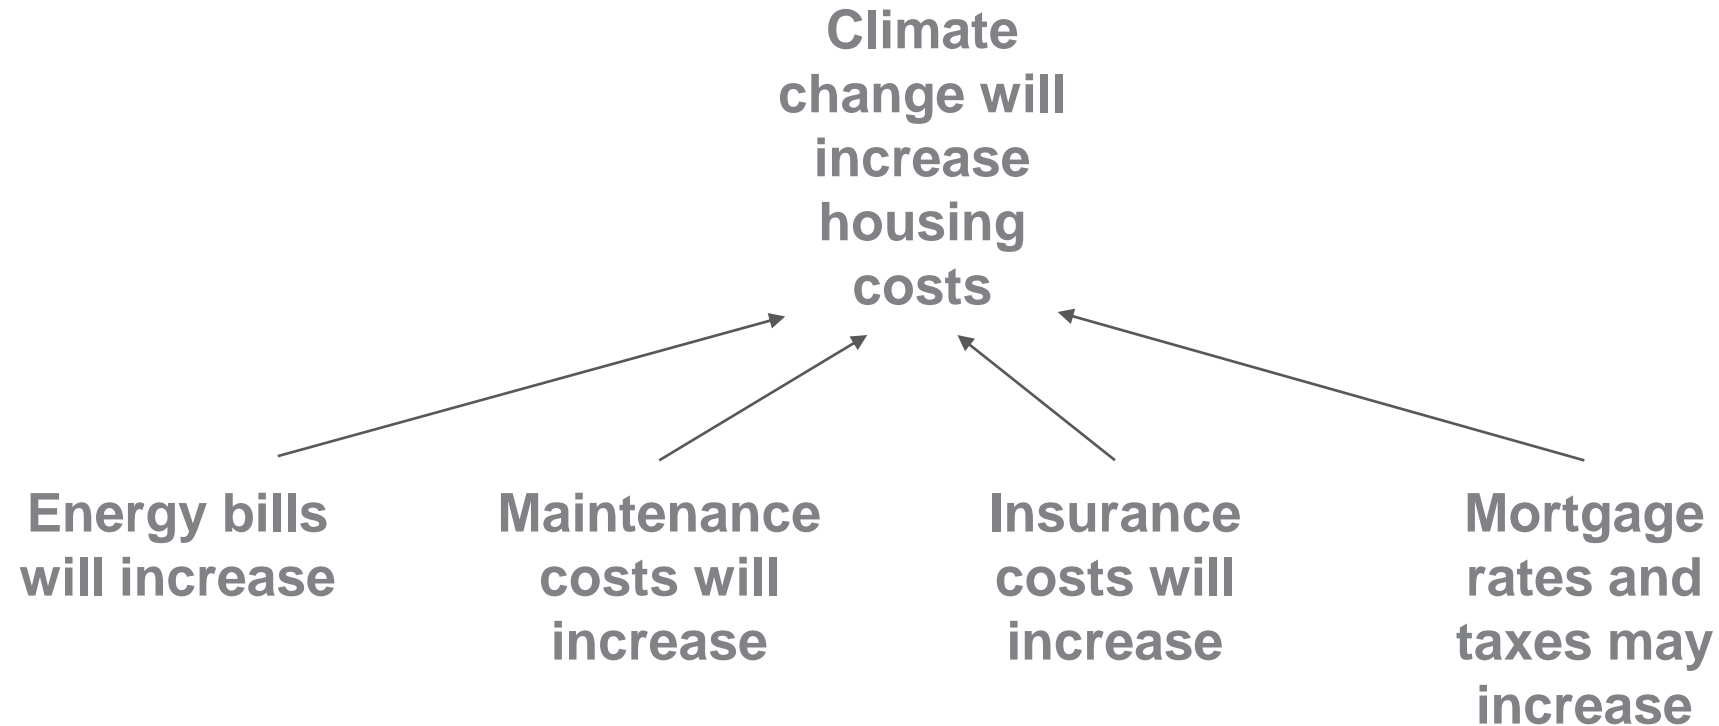

# Changing Climate

# Climate change will exacerbate the housing shortage

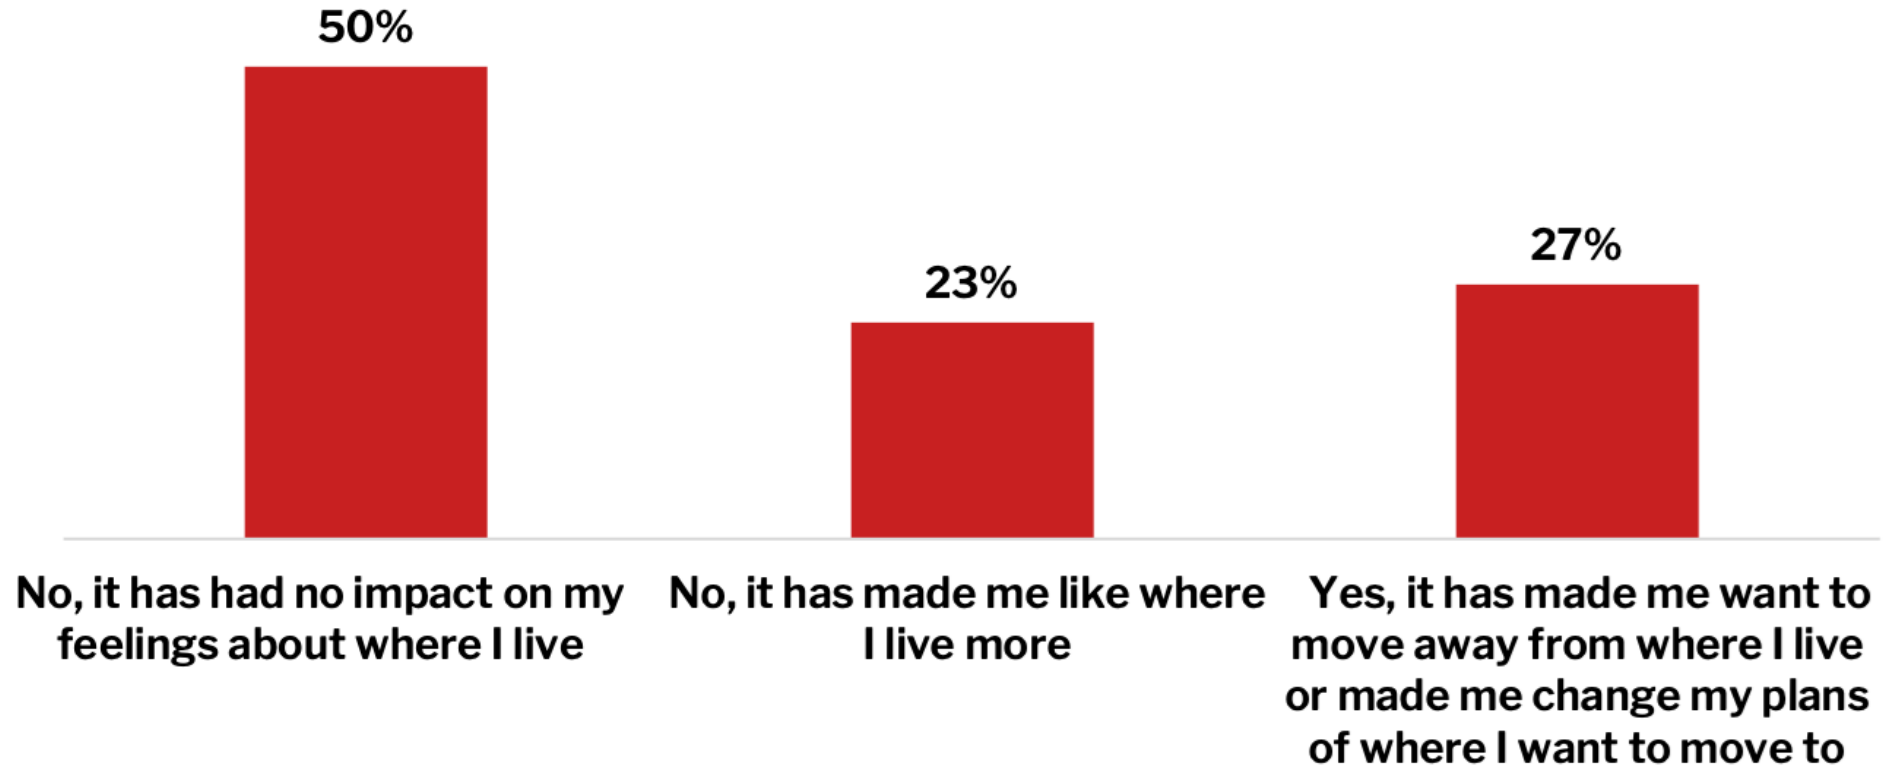

# Climate change will make housing even more expensive

# 27% of Americans Say Natural Disasters Impact Where They Want to Live

"Have recent natural disasters (e.g. fires, floods, storms) changed your opinion of where you want to live?"

Source: October 2020 Redfin Survey of over 3,000 U.S. Residents aged 18 and up

**REDFIN**

**REDFIN**

# 1 in 5 Americans Believes Climate Change Is Already Impacting Home Values

"Do you believe that the increasing frequency or intensity of natural disasters, extreme temperatures and/or rising sea levels will negatively impact home values in your area? If so, when?"

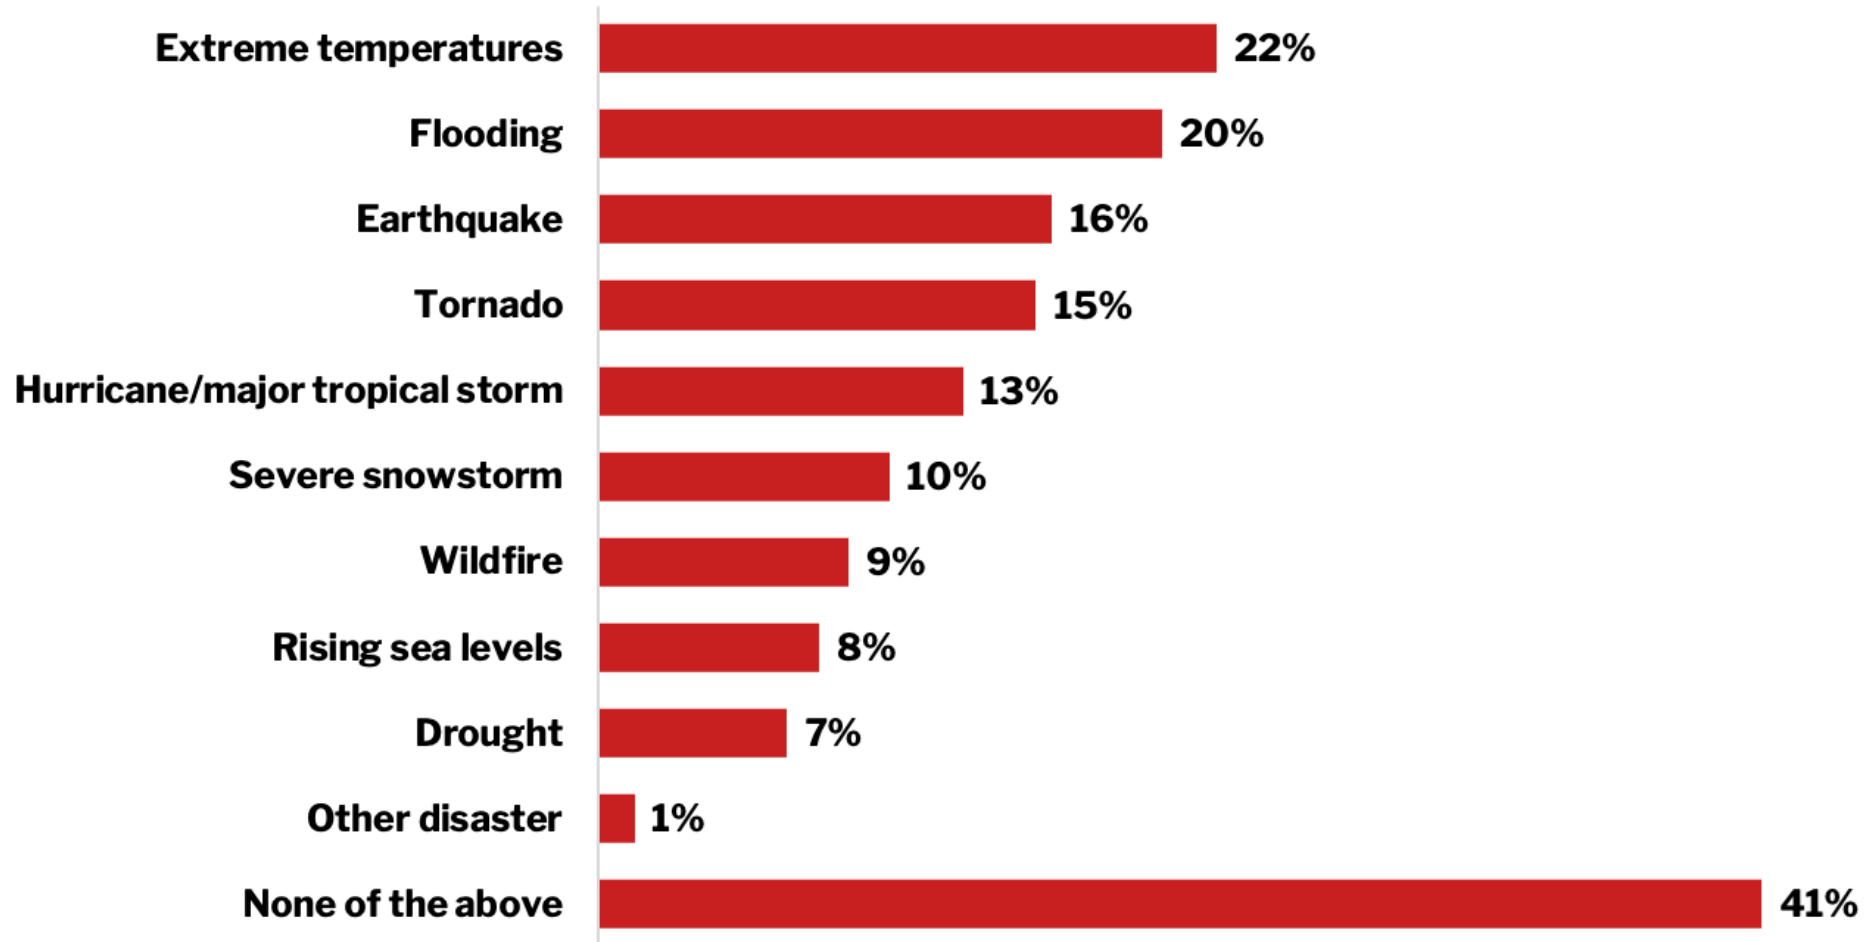

Source: Redfin survey

## 1 in 5 Homeowners Has Invested to Protect Against Extreme Temperatures, Flooding

"Have you invested money to make your home more resilient to any of the following? Select all that apply"

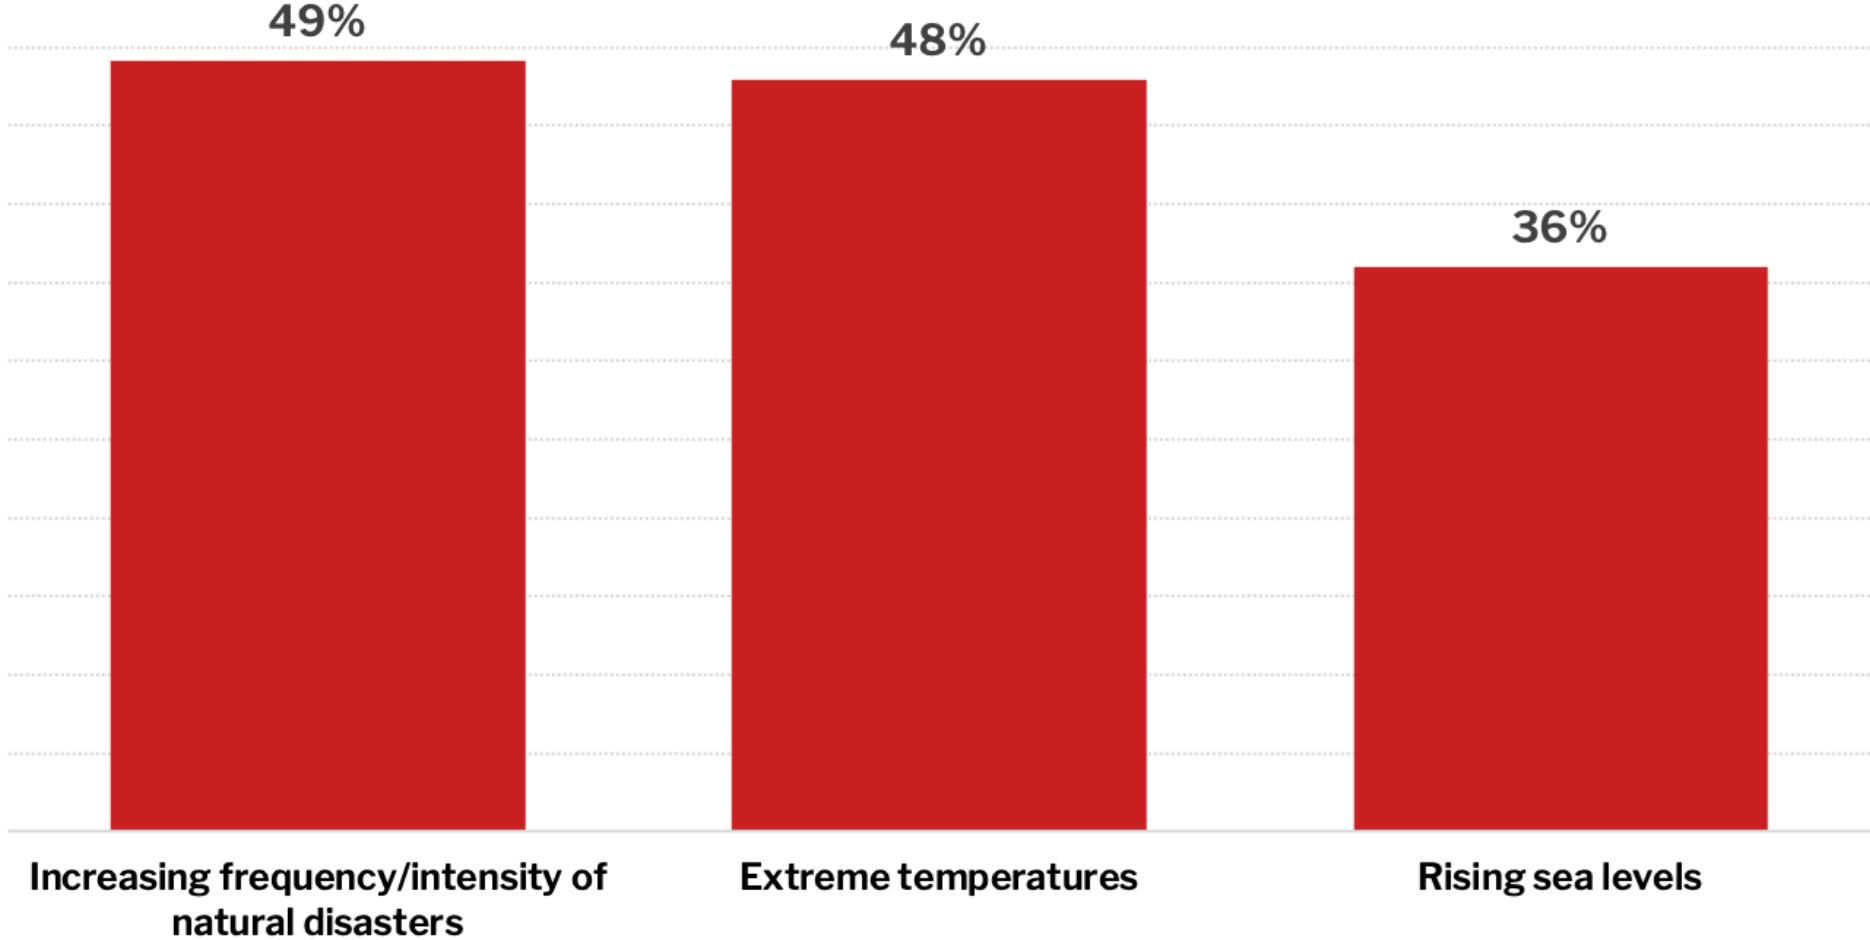

**Source:** Redfin survey; responses only include participants who said they are homeowners

**REDFIN**

# 49% of Americans Who Plan to Move In the Next Year Say Natural Disasters Were a Factor

Share of respondents who answered yes to "Have any of these risks played a role in your decision to move in the next year?"

Source: Redfin survey

# Three-Quarters of Americans Are Hesitant to Buy Homes In Areas With Climate Risk

Share of respondents who indicated they would be hesitant when asked how the presence of the following risks in an area would affect their decision to buy a home there

Source: Redfin survey

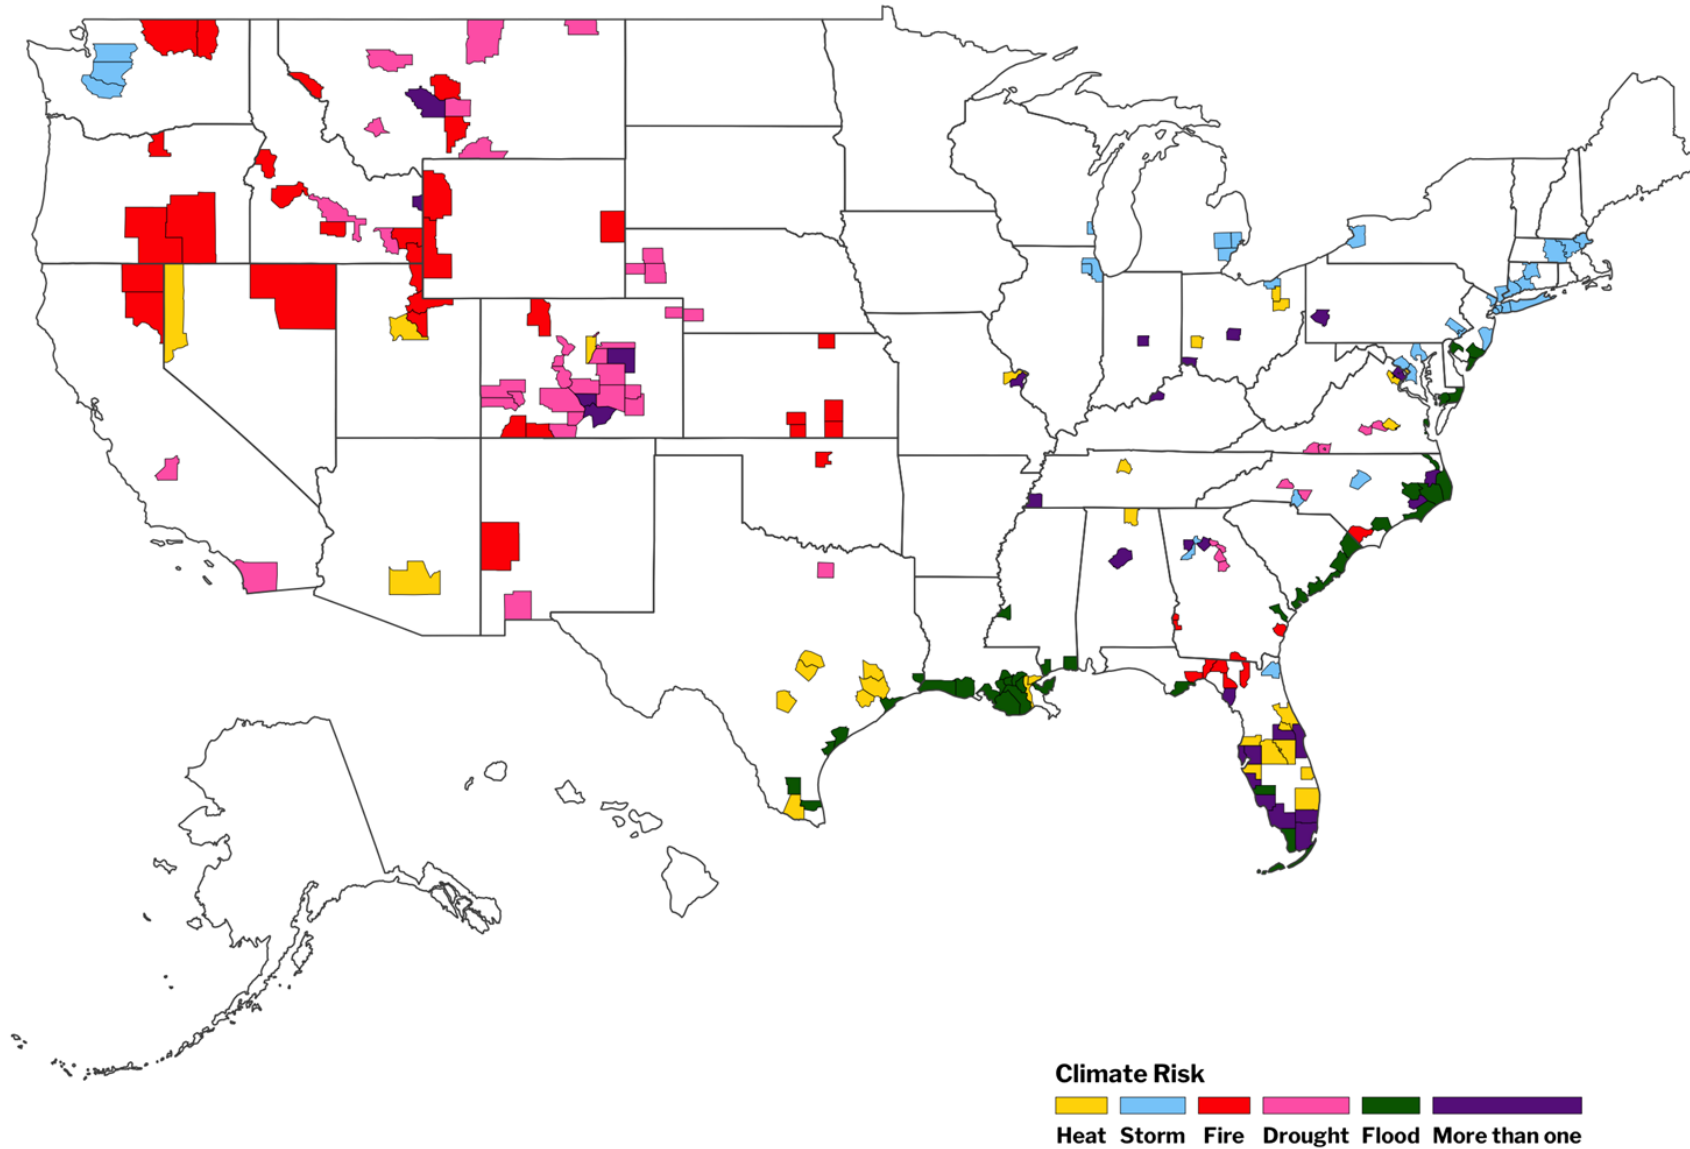

# Climate and Migration

# Climate Risk

*Top counties with highest percentage of properties facing high climate risk*

Source: ClimateCheck, county property records, MLS data, and 2020 population estimates from U.S. Census Bureau.

Note: A property is classified as having high climate risk when it faces a high, very high, or extreme climate risk score from ClimateCheck.

# More People Are Moving Into Than Out of Disaster-Prone Places

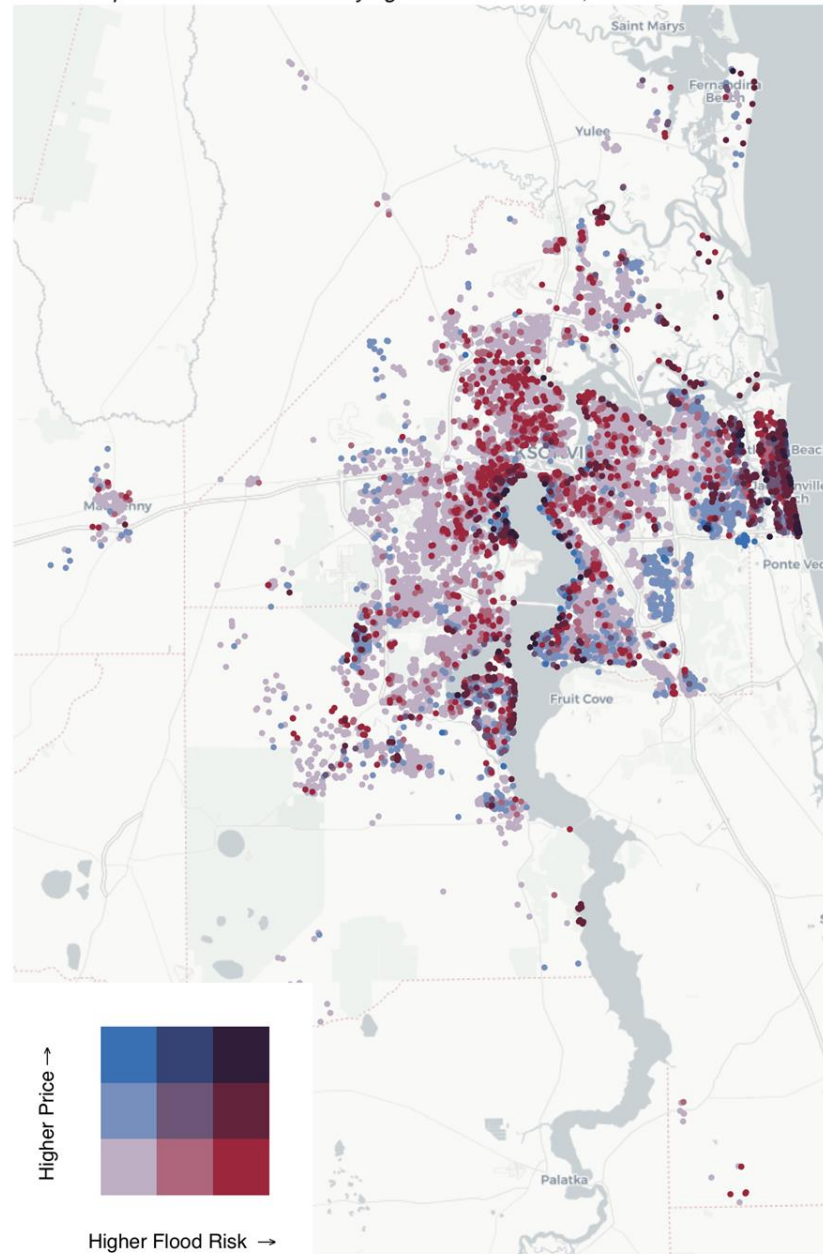

Net inflow to U.S. counties with largest share of homes facing high fire, flood and heat risk

Source: U.S. Census Bureau, First Street Foundation

# In Jacksonville, Coastal Homes With High Flood Risk Sell for More

Sale prices of homes with varying levels of flood risk, Q2 2020 - Q1 2021

REDFIN

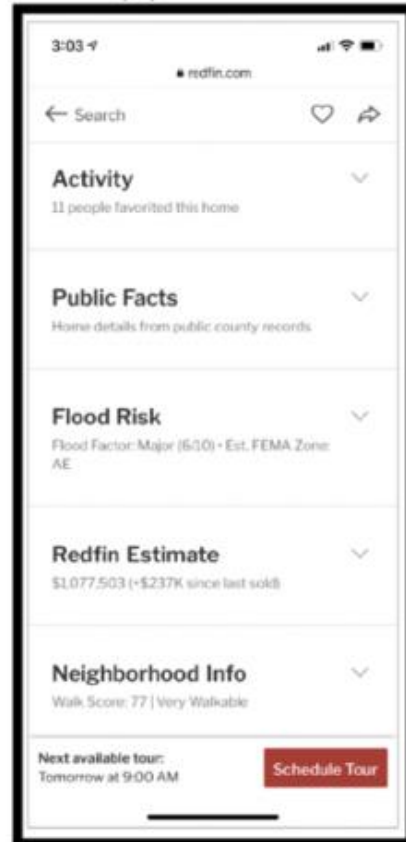

# Homebuyers With Access to Flood- Risk Data Bid on Lower-Risk Homes

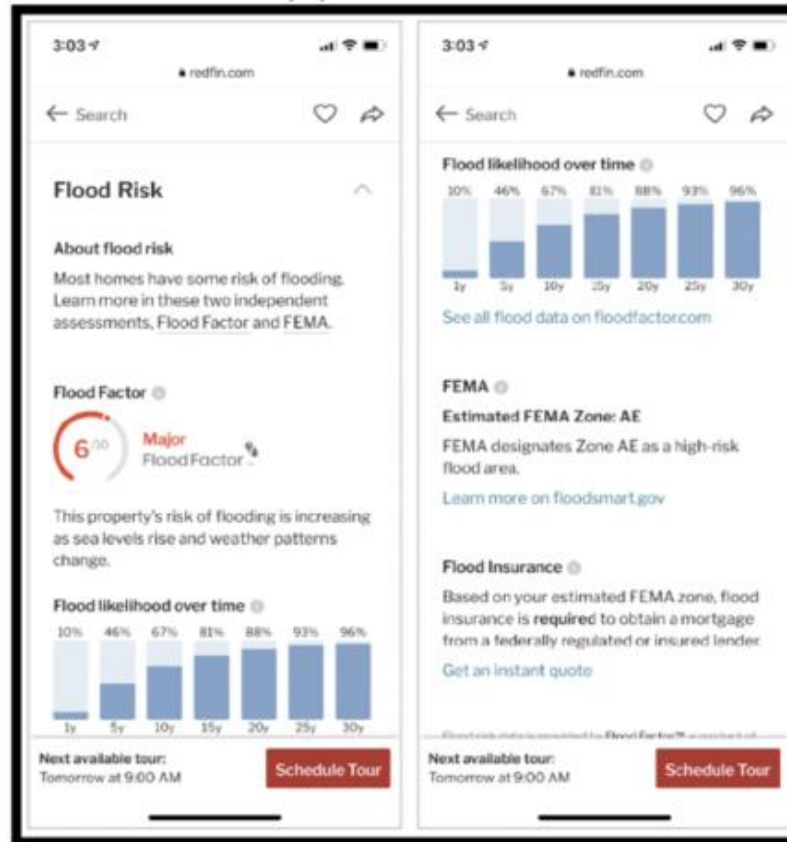

## Control View

## Treatment View

## Expanded Treatment View

# Homebuyers With Access to Flood-Risk Data Bid on Lower-Risk Homes

- **Redfin users who viewed homes with severe and/or extreme flood risk** prior to a Redfin experiment proceeded to **bid on homes with 54% less risk** after gaining access to risk data.
- Redfin users in flood-prone **Cape Coral, FL, Houston and Baton Rouge, LA** were **most likely to click** into the flood-risk section within home listings.
- **Home values in flood-prone areas could drop** as more people become aware of the risks. Authorities should respond by adding denser housing to low-risk cities.

**REDFIN**

Thank you

# HOME ATTAINABILITY INDEX

## 2024 RELEASE

CONFERENCE**

# HOME ATTAINABILITY INDEX

## ULI AND RCLCO COLLABORATION

### GOAL: BRING MORE HOUSING DATA TO PRACTITIONERS

#### FOUR KEY TOOLS

- ▶ “Print”/PDF Report
- ▶ Excel Tool
- ▶ Interactive Website Narrative (Flourish)
- ▶ Interactive Mapping Data Tool (Shiny Web App)

#### NEXT STEPS: TRACKING DATA CHANGES OVER TIME

# NATIONAL THEMES AND CONCLUSIONS

## THEMES OF PRODUCTION, MIDDLE-INCOME, EQUITY EXPANDED IN 10 KEY TAKEAWAYS:

- » Data confirms what is simple and what we know: production impacts affordability.
- » For-sale and rental affordability move in tandem across major markets.
- » Large, coastal Established markets remain most unaffordable with the largest share of cost-burdened renter households.
- » Large, coastal markets are most disproportionately expensive to buy relative to renting.
- » Middle-income households have the most access to buying in Backbone markets such as the Northeast (e.g., Pennsylvania, New York).
- » Rentals are most affordable in smaller Midwest and Sunbelt markets (e.g., Texas, North Carolina, Kentucky).
- » The least economically polarized markets are an interesting group; these are areas that have seen substantial in-migration recently, predominantly located in the West (Salt Lake, Boise, but also Palm Bay and Deltona, Florida).
- » Markets that struggle with racial disparity on a market level struggle with it on a neighborhood level too.
- » Backbone markets that have the most for-sale attainability also have the largest racial challenges related to housing access.
- » Magnet markets are doing best in terms of racial integration (e.g., Orlando, Austin, Miami, Houston).

# BRINGING THE INDEX TO AUSTIN

BUILDING, BUT NOT ENOUGH

HARD TO RENT, HARDER TO OWN IN THE MIDDLE CLASS

STRONG ECONOMIC AND RACIAL DIVERSITY

COMMUTING CHALLENGES

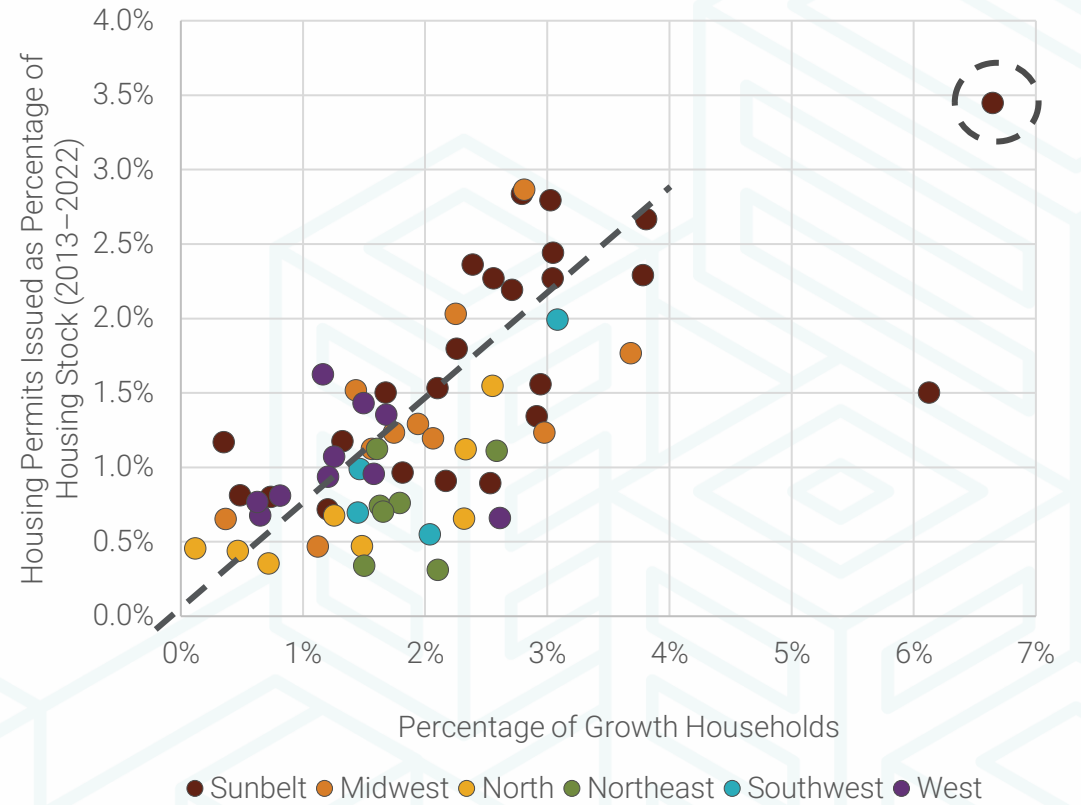

**HOUSING OPPORTUNITY  
CONFERENCE**

# HOUSING PRODUCTION

IN MOST MARKETS, PRODUCTION IS NOT KEEPING UP WITH HOUSEHOLD GROWTH BUT PARTICULARLY MAGNETS

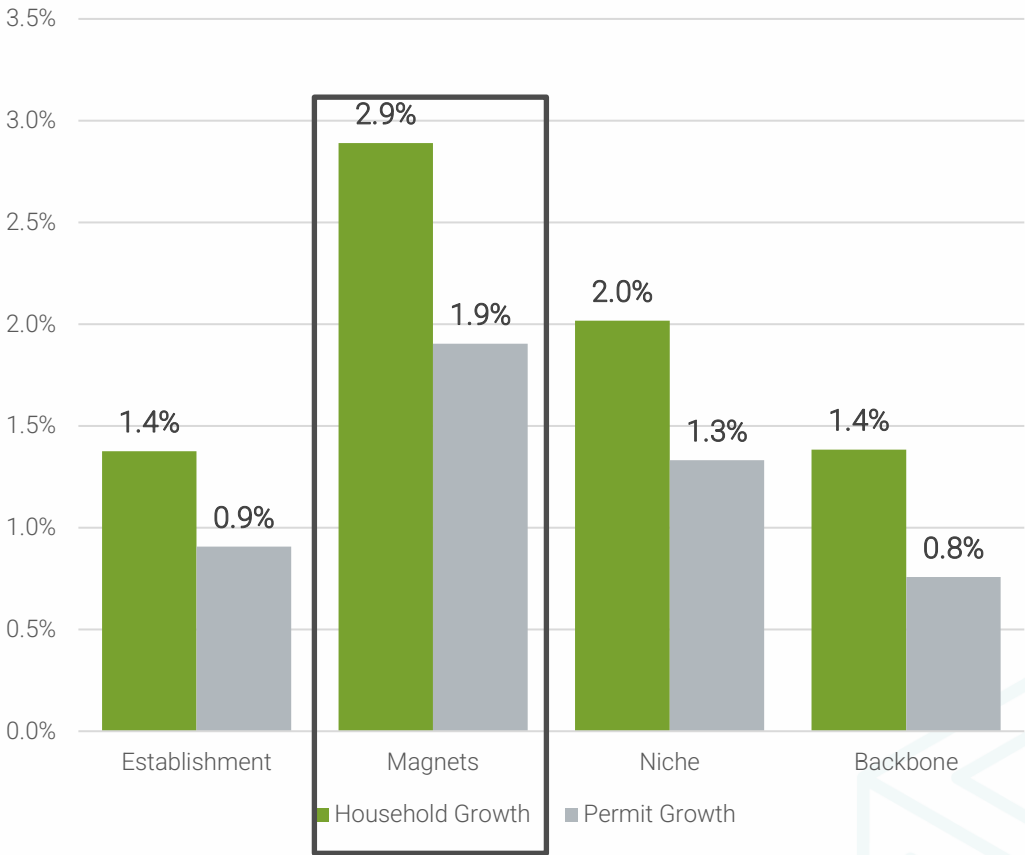

### Household Growth vs. Housing Production

# HOUSING PRODUCTION

## MAGNETS AND SUNBELT SEES MOST HOUSEHOLD AND PRODUCTION GAINS

Household Growth vs. Housing Production, 2013–2022

# HOUSING PRODUCTION

AUSTIN IS A DEVELOPMENT HOT SPOT, EXPANDING AT A MUCH FASTER RATE THAN COMPARABLE MSAS

Housing Permits Issued as Percentage of Housing Stock (2013–2022)

# AUSTIN MARKET-RATE HOUSING TRENDS

PERIOD FROM 2014-2018 CONTRASTS WITH 2019-2023

Austin MSA Market-Rate Apartment Trends

**HOUSING OPPORTUNITY CONFERENCE**

# DOES HOUSING PRODUCTION REALLY IMPACT AFFORDABILITY?

## HOUSING PRODUCTION IS RELATED TO AFFORDABILITY, AUSTIN A BIT OF AN OUTLIER

Housing Production vs. Rental Affordability

# RENTAL AFFORDABILITY CHALLENGES

## AUSTIN HAS A RELATIVELY HIGH PERCENTAGE OF COST-BURDENED HOUSEHOLDS

Percentage of Cost-Burdened Households with Income \$35K to \$50K

# RENTAL AFFORDABILITY

## MARKETS THAT ARE EXPENSIVE TO RENT ARE EXPENSIVE ACROSS INCOME LEVELS

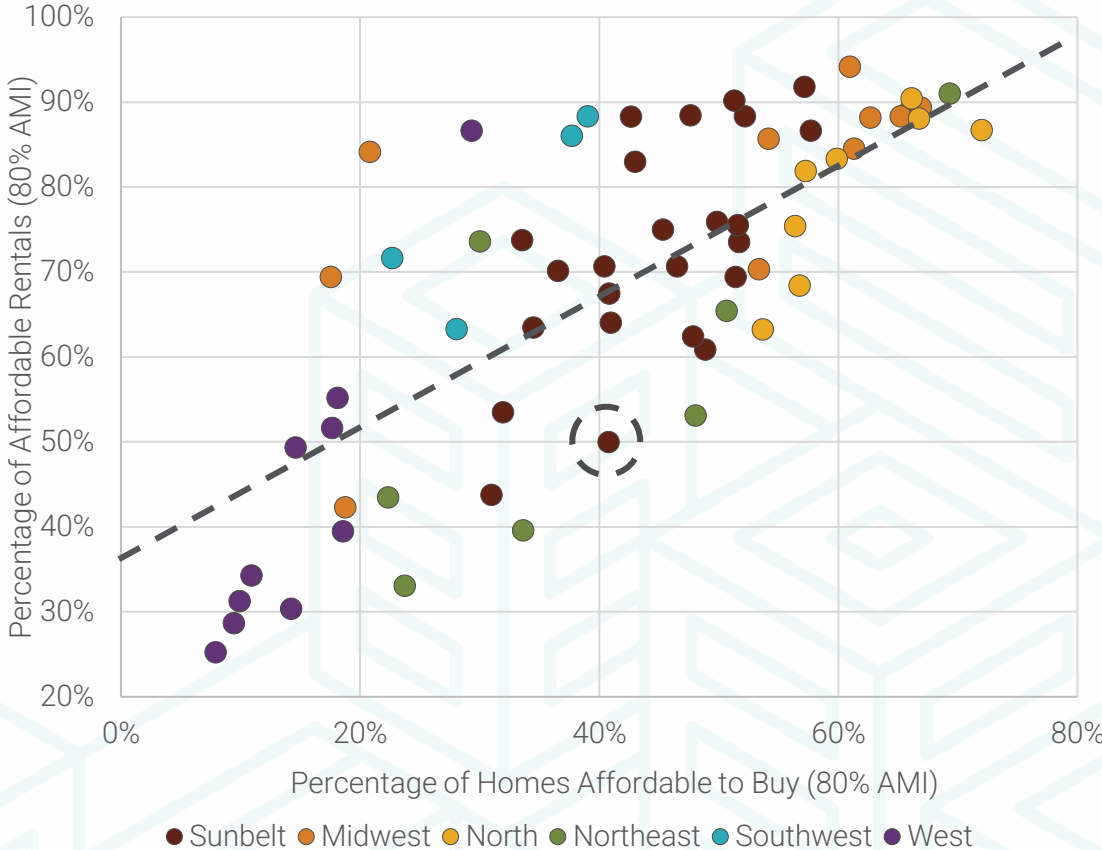

### Cost-Burdened Households vs. Rentals Affordable

# OVERALL AFFORDABILITY

## WHERE OWNING IS EXPENSIVE, SO IS RENTING

### For-Sale vs. Rentals Affordable at 80% AMI

# TENURE COST PROPORTIONALITY

## AUSTIN IS TOUGHER TO OWN IN RELATIVE TO MOST PEER CITIES

Tenure Cost Proportionality (Cost to Own / Cost to Rent Relative to Median MSA)

# AFFORDABILITY – WEB TOOLS

## CAN EXPLORE HOUSING COSTS BY MARKET, COMPARE TO PEERS

### INTERACTIVE HOUSING COSTS BY MARKET

Use the dropdown menu to analyze the cost of renting or owning by market

All  Average Cost to Rent

■ Average Cost to Rent

### INTERACTIVE HOUSING COSTS BY MARKET

Use the dropdown menu to analyze the cost of renting or owning by market

Austin, TX  All

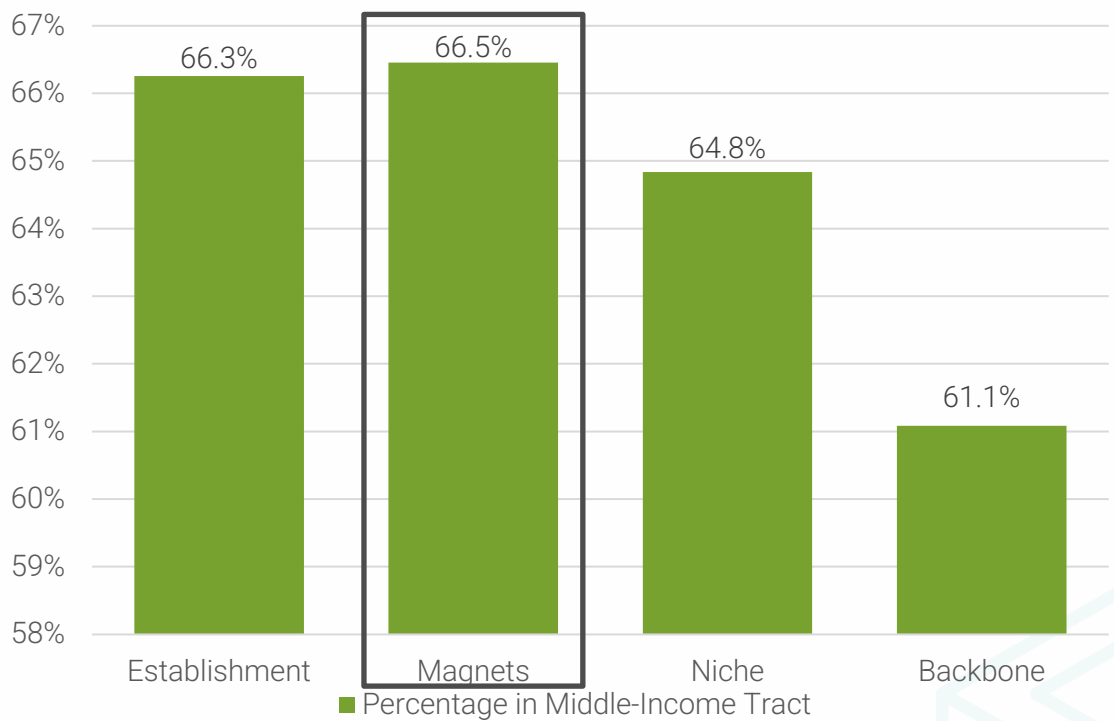

■ Cost to Own Home 20% Down ■ Cost to Own Home 10% Down ■ Cost to Own Home 3% Down  
■ Average Cost to Rent ■ Average Cost to Rent 1BR ■ Average Cost to Rent 2BR ■ Average Cost to Rent 3BR

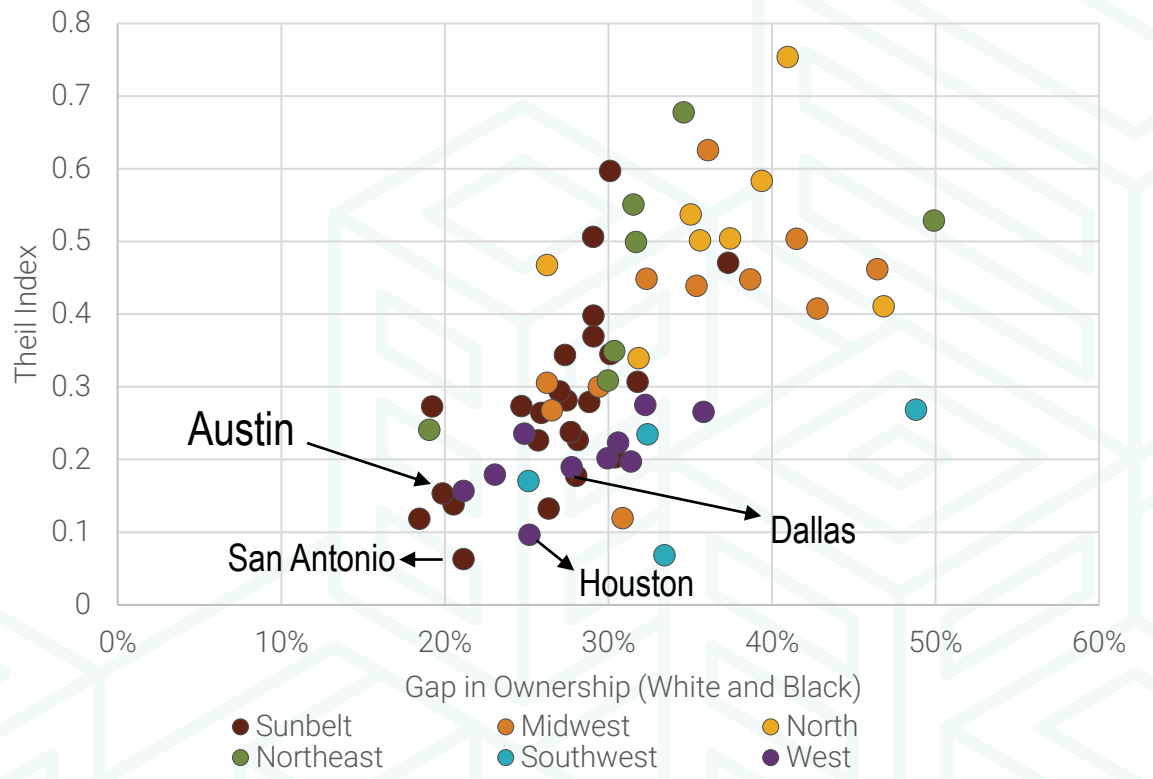

# ECONOMIC AND RACIAL INTEGRATION

MARKETS WITH MOST ECONOMIC INTEGRATION TEND TO BE RACIALLY INTEGRATED – AUSTIN IS A TOP-PERFORMER IN TERMS OF EQUITY

**Middle-Income Neighborhoods**  
(Percentage of Tracts with Median Income 80–120% AMI)

**Racial Disparity**

# ECONOMIC AND RACIAL INTEGRATION

## AUSTIN IS RELATIVELY WELL-INTEGRATED COMPARED TO PEER CITIES

Percentage in Middle-Income Tract vs. Gap in Ownership (White and Black)

# HOMELESSNESS

MORE SLACK IN AUSTIN COMPARED TO PEER MARKETS IN TERMS OF RENT TO MEDIAN INCOME RATIOS BEFORE PROJECTED UPTICK IN HOMELESSNESS

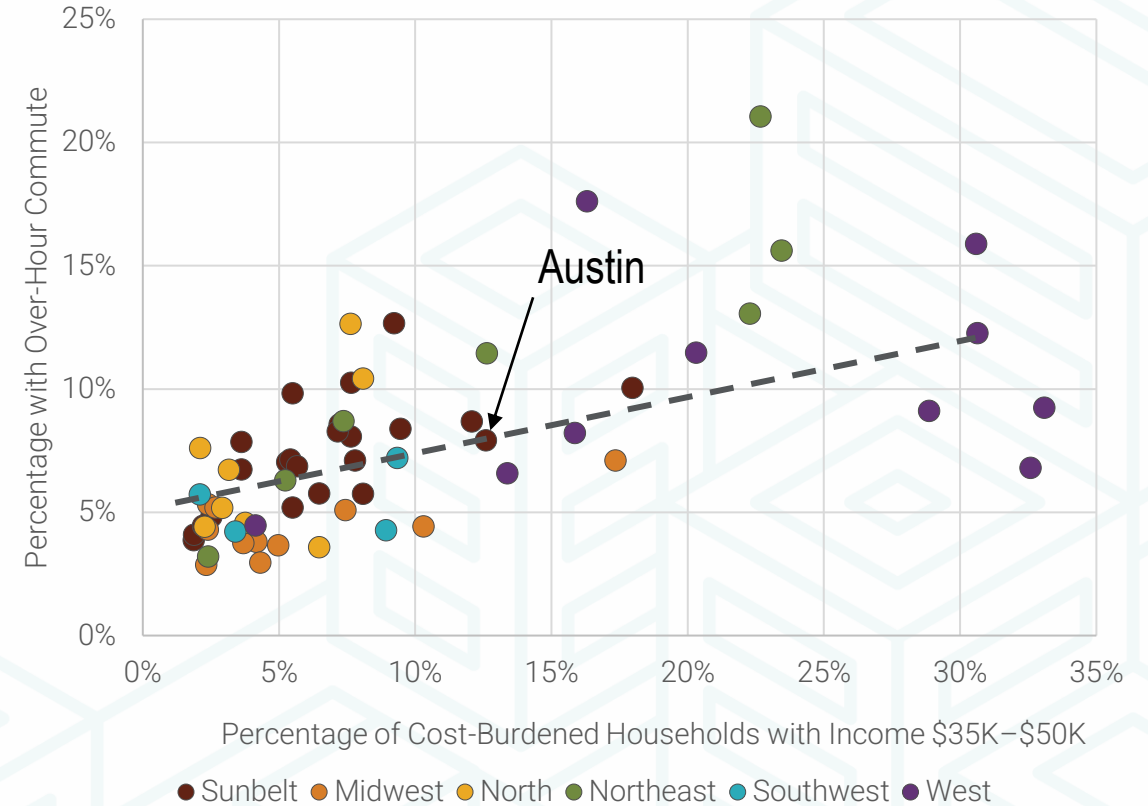

Homelessness Inflection Point (Distance to Threshold)

# CONNECTIVITY

## LARGE, EXPENSIVE MARKETS MEAN WORKERS ARE PUSHED FURTHER FROM THEIR JOBS – AUSTIN IN THE MIX OF MAGNETS

### Cost Burdens vs. Long Commutes

# LONG COMMUTES

SIMILAR COMMUTING PATTERNS TO PEERS – LESS LONG COMMUTES IN SUNBELT COMPARED TO COASTAL MARKETS, BUT HALF AS MUCH TRANSIT COMMUTERS

Share of Commutes Over One Hour

# EQUITY & INCLUSION – WEB TOOLS

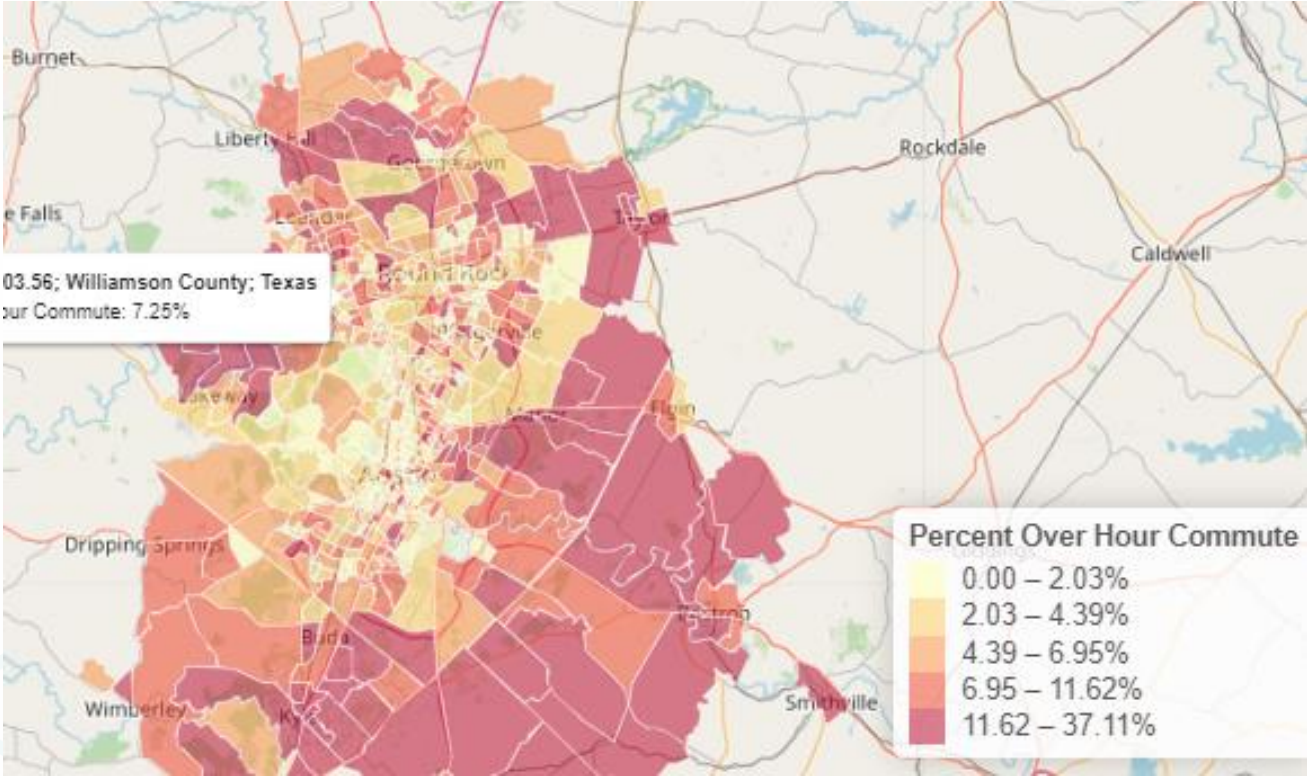

NEIGHBORHOOD-LEVEL EXPLORATION:

[HTTPS://RCLCO-CONSULTING.SHINYAPPS.IO/RCLCOULI/](https://rclco-consulting.shinyapps.io/rclcouli/)

White vs. Black Homeownership Gap

Share of Commutes Over One Hour by Tract

# AUSTIN SUMMARY OUTPUT METRICS (EXCEL TOOL)

AUSTIN BOASTS STRONG INTEGRATION, BUT HAS NOT PRODUCED ENOUGH DIVERSITY OF HOUSING TO KEEP UP WITH DEMAND THIS PAST DECADE

Variable Name	Austin-Round Rock-Georgetown, TX Metro Area	Other Comparable Metro Areas	Over 1M	Magnets	Sunbelt	Average - All MSAs
<b>Overall Affordability</b>						
Tenure Cost Proportionality	1.18	1.02	1.12	1.05	0.99	1.09
Percentage of Cost-Burdened Households with Income \$35K-\$50K	12.6%	7.2%	7.0%	10.5%	6.7%	7.8%
Percentage of Cost-Burdened Households with Income \$50K-\$75K	1.9%	1.1%	2.0%	2.2%	1.2%	2.0%
